

Commentary

Mercury, 3

1. Child's name
2. **(7)** Ask whether any crayons are missing from the package and discuss the number of crayons usually in a package.
3. Visually check. The pattern should be repeated exactly.
4. The robot should be colored. Talk about how money values are written and how many pennies are needed to make a dollar.
5. **(7, 4, 11)** Have the children act out this problem with objects and a box. Ask for other ways to arrange 11 balls inside and outside the box.
6. **(5 stars, 2 moons, 8)**
